

# PLEASE HELP SAVE BRIGHTON & HOVE ALBION FOOTBALL CLUB

**Brighton & Hove Albion is in severe danger of folding unless plans for a community stadium are approved by the Government.**

This vital stadium should go ahead because:

- **It is in the national interest.** Brighton & Hove is a city of 250,000 residents, and the heart of the 10<sup>th</sup> largest urban area in England & Wales. Every major city should be able to provide a suitable stadium.
- **The social and economic benefits are immense.** It will boost sport, health, education, skills-training, employment and the local economy.
- **It has huge support in the city and across the country.** The city council, sporting, education, employment and development bodies, and the vast majority of local voters are in favour.
- **The site at Falmer is the only viable option.** With trains and buses direct to the stadium, Falmer is the **only** sustainable site. Shared use of existing car-parks plus satellite park-and-ride mean land-take is minimised. If Falmer is rejected, Brighton & Hove can **never** have a suitable stadium.
